

MANAGED EMAIL BACKUP & ARCHIVING

Microsoft and Google do not backup your data: your business data is your own responsibility. Our standard backup and email archiving platform for Microsoft 365 and Google Workspace enables businesses to backup, recover and protect their business data. All data is stored on servers located in Canada on Amazon Web Services (AWS).

Features & Benefits

Microsoft 365 Backup: Mailboxes (Outlook), SharePoint, OneDrive, Groups & Teams, Contacts/Calendars/Tasks

Google Workspace Backup: Gmail, My Drive, Shared Drive, Contacts, Calendars and Tasks

- Military-Grade Security: AES 256-bit encryption and TLS 1.2/SSL to ensure your data is protected in transit and at rest
- Scalability: Flexibility to automatically add and remove users on a weekly sync
- User-friendly: Single panel dashboard for user admin and management
- Single Sign On (SSO) Support
- Insights BI: Provides insights into employee productivity
- Powerful Search: Fast and advanced search tools
- Data Recovery: Customizable restore options and data export
- Role-Based Access: Delegated, admin, end-user or group supervisor
- GDPR and HIPAA Compliant

Email Backup

- Automated and incremental backups
- Backups held for an unlimited amount of time with no size limitations
- One-click download, restore and migrate
- Backup cadence:
 - Email backups 12xday
 - Contacts, Calendars, Tasks, OneDrive (M365) 1xday
 - My Drive (GW), SharePoint/Shared Drive 3xday
 - MS Groups and Teams 3xday

Email Archiving

- Built on top of email backup solution
- Search
 - eDiscovery, saved searches, audit and activity tags
 - “Right to forget” (GDPR)
- Legal Holds and retention policies: Users, saved searches, messaging

Pricing & Billing

Email Backup | \$5/user/month

Email Backup + Archiving | \$7/user/month

Users can be added or removed with automated billing updated every month. Month-to-month contracts (no terms). Mixing and matching license types is not permitted.
